The North Wessex Downs are an Area of Outstanding Natural Beauty west of Reading and south of Swindon. This guidebook explores the Downs in 30 walks, which find the best of the wide range of landscapes, history and interest the Downs have to offer. Ranging between 7 to 20km in length, the routes in this guide are suitable for walkers of most abilities; from gentle rambles to more challenging day-long hikes.

History is engrained into the very earth of the Downs. The land of Alfred the Great is also home to ancient Neolithic and Iron age hillforts and white horses carved into the chalk. The Downs also teem with interest for wildlife and flora lovers, as walks amble along the long grassy escarpments, by winding rivers and into deep woodlands.

This guide also provides plenty of practical information to make the most out of exploring the North Wessex Downs on foot. Information on distance, timings, refreshments and public transport links are provided for every walk, alongside annotated OS maps and details on the many points of interest along the way.
