One of the great pilgrimage routes of Europe, the Via Francigena covers 1900km on its way from Canterbury to Rome. In this second volume, the route descends from the Great St Bernard Pass and continues through the historic villages and towns of north Italy to reach the Eternal City.

This is the first published guide to a route destined to become as popular as the Way of St James and Via de la Plata. Since becoming a European Cultural Itinerary in 1994, it is now fully waymarked with plentiful accommodation.
