This map booklet shows the 180-mile (288km) Thames Path, a National Trail from London's Thames Barrier to the river's source near Cirencester in Gloucestershire. This easy riverside route, which passes through Windsor and rural countryside on its course, is divided into 20 stages (with stages ranging from 4 to 16 miles). The complete trail takes around two weeks to complete.

This booklet of Ordnance Survey 1:25,000 Explorer maps has been designed for convenient use on the trail. It shows the full and up-to-date line of the National Trail, along with the relevant extract from the OS Explorer map legend. It can be used when walking the trail in either direction. Conveniently sized for slipping into a jacket pocket or top of a rucksack, it comes in a clear PVC sleeve and provides all the mapping needed to complete the trail. The only long-distance route to follow a river throughout its length from tidal waters, the Thames Path passes through London and major towns as well as quaint countryside, offering walkers truly diverse scenery.

An accompanying Cicerone guidebook – The Thames Path / 9781852848293 – describes the full route with lots of other practical and historical information, for those who prefer a written guide. **NOTE:** The accompanying guidebook includes a copy of this map booklet.

About the author

Leigh Hatts has been walking the Thames towpath and exploring the river and Docklands since 1981, when he worked on the feasibility study that resulted in the decision to establish the route as a National Trail. He worked as a reporter with the walkers' magazine TGO and as arts correspondent of the Catholic Herald. He is co-founder of Bankside Press.
